

Orientation session Robotics and AR VR

An Orientation Session for Robotics and AR VR was conducted by Rancho Labs in collaboration with IIT Delhi Technology Innovation Hub for students of class 6 to 9 on Thursday 2nd May, 2024 in the inner auditorium to give an insight on the interdisciplinary study of Robotics and AR VR. Through this session the speakers illustrated the teaching learning journey of design, construction, operation and the use of robots which students will go through during their Robotics and AR VR classes in the current academic session.
