

FUN DAY (2024-25)

Fun Day was organised on 18th October, 2024 on the school grounds during school hours. Among the many attractive features of the day were the class stalls put up by students of different classes showcasing a variety of creative games. The experience of setting up and managing stalls and also of managing money on their own at school proved to be empowering for the young children. It was truly a 'Fun day', set up by students for the students leaving everyone wanting for more. These were accompanied by food stalls. These stalls were managed by parents and vendors from outside. Children's happiness knew no bounds as they spent an entire school day with friends, on the grounds at games and food stalls.
